Dear Mr. Weisberg:

Here are copies of the Warren Commission documents you requested during our telephone conversation of today.

These documents were part of a package of documents I received on July 9 from the National Archives.

I had requested copies of all Warren Commission documents that have been declassified and released since the first of the year. This package contained approximately 386 pages of copied documents.

I requested these by letter on June 12.

Regards,

Larry S. Finley
